This book will open you to the divergence of creative expression through these contemporary eclectic collections of mine. All might not be right, but lots will amaze you. Poetry deals with human activities and expertise as it s being expressed in writing forms. It s the beauty of thought, passion and creative power of the mind that is being expressed in a poetic formula. This piece of work is an expressive word of my thinking pattern, creative guts and perceptions, aided by poetic motive. You are invited to reason and view from the different angles I do see things.
