Excerpt: . test the soundness of any argument, any process of reasoning whatever, we should apply to it the following three questions in as much detail as seems necessary. Correctness of Premises 1. Are the premises, that is, the successive statements as to fact, accurate, correct? This is really applying to the single statements the test applied above to the whole idea. Often errors are discovered at this point. Take for example the argument: Interference with another man s business is illegal. Underselling interferes with another man s business. Therefore bargain sales are illegal. Here, as a little reflection shows, the term interference with another man s business is used in two different senses in the first and second statements. Incorrect Sequence--Analogy 2. Do the premises really lead to the conclusion offered? Under this come at least two possible cases: (a) Is the apparent connection of premises with con clusion merely accidental; for instance, is the relation df premises and conclusion merely one of analogy f The following instance seems so extravagant as to be quite improbable, yet we have all known apparently sensible persons to reason just as hastily: I positively refuse to employ any cashier in this bank who wears rubber heels, declared the president of a fairly prominent bank. Such a man is dishonest. It was found that a former cashier, who wore rubber heels, had absconded with funds sufficient to entail a heavy loss upon the institution. In advocating business plans...
