We then multiply the divisor 9 by the 6, and subtract the product 54 from 62. To the remainder 8, we annex 1, the last figure in the dividend, making 81. We say, 9 in 81, 9 times, and write the 9 over the 1 in the dividend. We then multiply the divisor 9 by the last figure in the quotient, or 9, and write the product 81 under the 81. As there is no remainder, the division is exact. Hahvey s Ar. I--11 To The Teacher. Pupils should see clearly that the mental work is exactly the same in both forms of division; but that in the Long Division form, tho work of multiplying, subtracting, and annexing is all written out, while...

Reviews

It is an awesome publication which i actually have ever read through. it had been writtern really properly and valuable. I found out this book from my i and dad recommended this pdf to discover. -- Doyle Schmeler

This book is definitely not simple to begin on studying but quite fun to see. I actually have read and that i am sure that i will gonna read through yet again once again in the foreseeable future. It is extremely difficult to leave it before concluding, once you begin to read the book.
